THE FAMILY ASSET INVENTORY.

A family in your city or town has a car, a big kitchen, and a cousin who runs a stall where many people pass each day. They have no new money to spend. What business could they start this week? Picture the family, and work from imagination. You may add family details that fit the case.

2. Ask one real seller in your city the price of the one tool, material or service your idea needs most. Bring it.
3. Map keeper: keep this team asset list. Chaos-log keeper: add one new entry to your team's chaos log.
